

## DigiGreet Lite is a Digital visitors and staff signing in book

### Applications

It can be used in receptions to offer a smarter experience for visitors, staff or contractors.

### Why use the system?

Compared to a paper-based system, DigiGreet greatly reduces administration costs and time. It is easy to use with minimal training.

It is available with a "no hassle" set up for a monthly charge.

See who is on your premises at any time, you can also see times, frequency and a host of other useful information to help you manage the business.

### How does it benefit the user?

It looks great and gives visitors a positive first impression.

It remembers you and can give you personalised reminders and messages on arrival and exit.

- Up and running in no time.
- GDPR compliant.
- Look the part -use your branding.
- Compliance -see who is on site 24/7.
- Time Management -see contractors sign in and out.
- Built in fire drill check and history.

## System Features

**Flexibility** to cover any scenario, we can add bespoke features as needed \*.

**Equipment** - DigiGreet is portable and can run on tablets, desktop so it can be used anywhere.

**Monitoring** - Real time reports on who is on the premises. In an emergency situation, everyone can be accounted for easily.

**Branding** - DigiGreet uses your artwork i.e. logo, colours and font, you can even add a welcoming message with images or even a video to make it a natural extension of your friendly reception experience. \*

**Fire log reports** - DigiGreet allows you to take a register of all the people on site in a fire drill, keeping a log for health and safety purposes.

**Health Safety** - Have a pre-requisite questions or an agreement before a visitor can sign in, DigiGreet can take this into account.

**Staff and Visitors** - Manage staff differently to visitors.

**Reporting** - See key visit data such as contractor time sheets, daily visitor numbers and late arrivals

## Standout

What makes us different from other providers is we can adapt the system to meet your needs giving you better solutions. \*
